17 MR. ELLIOT: Madam Chair, do you, at this time,

18 wish to go over the items we discussed in executive or do

you want to wait until the end?

20 CHAIRWOMAN BOURGUET: We usually wait till the

21 end --

22 MR. ELLIOT: Okay.

23 CHAIRWOMAN BOURGUET: -- so let's do it at the

24 end. All right?

25 All right. I'd like to announce at this time 1 we're slowly closing it.

There's been multiple proposals from everyone. 2

3 I don't know that we really have a consensus, although I

joked as people left that you'd probably come back today

and all be in consensus and agreement on race dates by the

groups. 6

7 The stakeholders are multiple, but obviously the

8 five tracks, the two horse groups, and then I think there

are some other entity holders that have things at stake,

and that has to do with the community and the local -- the

11 local economies of locations that have racetracks.

So anyway, I appreciate everybody's give and 12

13 take yesterday. I don't know that we're quite there. I

look forward to hearing -- hearing some updated proposals

15 that I kind of rumored about, and we'll see.

I'd like to get the dates approved sooner rather

than later, but soon doesn't necessarily mean today. So

we'll -- we'll probably not reach a conclusion today.

We'll probably need a little time. 19

20 I find it incredibly difficult to visualize the

whole year. I see dates, you know, X date to X date, and

22 without putting them all together, it's a difficult

23 concept to get ahold of just by talking about dates.

When someone -- one -- one track changes dates 24

25 or proposals, it -- it impacts everybody, so I think we

2 regional manager for the Jockeys' Guild, Incorporated.

I'd like to start off welcoming everybody back 3

4 and look forward to working with you all.

5 And on the Downs at Albuquerque, we had a great

6 opening and a lot of people there. Everything was in

7 order, as it should be, and was a great turnout.

8 And the rest of my report I'll wait on and defer

9 it till Mindy Coleman gets here -- our in-house counsel --

10 for the next meeting.

11 CHAIRWOMAN BOURGUET: Okay. That sounds good.

12 Well, tell Mindy we say hello and look forward to visiting

13 with her and receiving her report, but we always look

forward to talking with you too, John.

15 MR. BEECH: Well, thank you very much.

16 CHAIRWOMAN BOURGUET: Okay. Thank you.

17 Item E, New Mexico Racing Commission Executive

18 Director Report. Izzy, please?

MR. TREJO: Yes, Madam Chair, members of the 19

20 Commission, and audience, great to see a big audience here

21 today.

6

8

9

22 First off, starting off with the trip to

23 Cloudcroft, New Mexico, to go before the LFC on July 12th,

it went very well.

25 We did elaborate to them our -- our willingness that's an important direction that we need to go as well.

It will be part of our strategic plan for FY 21, 2

as we head into budget season here shortly.

Also speaking of drug testing, I'm very proud of 4

our laboratory, Industrial Laboratories. Over a two-week 5

span -- July 4th through July 18th -- the agency had over

500 samples tested from Ruidoso Downs itself. That

includes 151 out-of-competition tests. The results turned

up 12 positives.

And I only bring this up -- I normally don't 10 bring these facts up here, but we're starting to find some 11

different types of drugs in these horses -- for example, 12

ostarine, formoterol, Cardarine, and doxapram -- drugs

that we haven't seen here in New Mexico before. 14

15 So it may -- the zero tolerance of albuterol may

be a contributor to guys searching for new ways to cheat, 16

but, you know, if there is a silver lining to drug, quote, 17

positives, it's that eight of the twelve violations were

one trainer, and the other ones were people that we -- we 19

routinely see in front of us for violations.

So I think we're zeroing in on who the bad guys

22 are, and we're going to continue our efforts to push them

23 out.

21

So I'm proud of our lab and proud of our -- our 24 25 out-of-competition testing program for -- for hitting on

Page 22

1 to expand on our animal welfare approach to the equine athlete. 2

We expressed our -- our need to build a 3 veterinarian team in which we have more than our one official veterinarian that's employed by us. 5

Right now we have a contracted official vet -we have one on staff -- so we'd like to build a team of two official vets per racetrack in order to enhance our pre-race inspections of the horses on race day.

10 I think our goal there is going to be to inspect 11 every horse that's entered on every race day, and as well as -- those veterinarians, their job will also be to advocate and be the voice for the equine athletes. I 13 think that's a direction that we certainly need to go. 14

We expressed to them our -- our intent to 15 implement the out-of-competition testing program for 16 17 training hours.

We explained to them that we're not naive to the 18 fact the horses do not break down in the morning during 19 training. As a matter of fact, they do, so we want to implement some new rules that will focus on 22 corticosteroids and nonsteroidal anti-inflammatory drugs, to drug test horses during training to assure that they're

not being put into training while they're suffering from

25 ailments that those drugs would mask, so -- which I think

1 all cylinders for that.

2 I know it's been a while since we met, but I

certainly want to congratulate the gentlemen from SunRay Park, Brad Boehm and Lonnie Barber. I think they had a

heck of a successful meet.

And I don't know if they're going to mention any 6 7 statistics from their meet -- I know we heard a lot of

them yesterday -- but I think they did a great job in

dealing with what they went through the last few years and

changing up and going to a 17-day race meet, and the

numbers were out of this world. 11

I also wanted to congratulate Mr. Don Cook and 12 13 Mr. Paul Blanchard for opening night at Downs at Albuquerque. 14

15 I was physically there present and I haven't seen so many people there in my whole life, but it was --16 other than when I was a kid, when we had the State Fair --17 but the crowds are coming back to the Downs at 18 19 Albuquerque.

I think the night racing has really helped the facility grow. It's a happening place to be in 21 Albuquerque during the summertime, so we -- I think the numbers are going pretty well as far as pari-mutuel goes, so I applaud their team there.

Also, thanks to Don Cook for working with the

1 trained in this state. I have run in Arkansas,

- 2 Massachusetts, Louisiana, Arizona -- quite a few states.
- 3 Racing has been good to me.

We've got some real problems in this state, and

- 5 it's not just in the state itself -- it's nationally --
- and that's the perspective of horse racing today. Unless
- 7 we address this. I'm not sure what the state of this
- 8 industry is going to be in another four to five years.

9 I was also asked to tell you a good story, and 10 the good story is this: If you walk the walk, you can

11 talk the talk, and that's the difference, I've walked the

12 walk, so I guess it's time now to talk the talk.

I started out in 2004 with one horse; now I've got 60. I never intended for it to be 60. I never

14 got 60. I never intended for it to be 60. I never 15 intended to get in the game as -- as I have. I started

16 out breeding, wound up racing.

For the past five years we've been in the top 30 owners in the nation. There's 29,000 thoroughbred owners in the nation.

I run my own barn. I've got my own private

21 trainer. We rest our horses every year about 30 days.

22 We've got our own retirement program. I've got a ranch in

I've got my own rehabilitation program where we

3 Colorado. I've got 29 horses out there that are retired

24 now that we've taken off the track.

25

15

1 upside real quick in a nutshell: More stall space, more

2 opportunity to run, better policing of the horses, better

3 jockeys; outside interests outside of this state that will

4 bring horses in this state to run.

As it is right now, we're presenting a race meet

6 that has breeds in it -- three races a day -- that has

7 open horses in it and has Quarter Horses in it and then

8 them altogether.

5

Nobody from out of state is going to come here to run -- they're running open horses -- unless they can run a legitimate amount of races a day.

The minute you split this meet up, you will have people from out of state interested in coming here.

14 Is that going to endanger the trainers we --

15 right now, we've got a lot of trainers that don't want to

6 see a split meet. Do you know why they don't want to see

17 a split meet? They're afraid of the competition. That's

18 nonsense.

19 If you've got a purse value of X on a track, the 20 guy over here running for Z is going to send his X horses, 21 not his Z horses.

In other words, if we're running for average

23 money 15,000 per average race, that's the type of horses

24 that are going to come here to run. He's not going to

25 send his better horses. He's going to leave them where

Page 34

1 bring horses back that are sore from the track -- rather

2 than paying excessive vet bills -- and heal those horses

3 up before we send them back.

4 It's been an interesting game, and in this game 5 you never quit learning, but I think it's time to take a

6 step forward in this state, and instead of reacting, I

7 think we ought to begin acting, and it's pretty easy to 8 do.

9 One of the proposals I think that's before you 10 right now is splitting race meets. It should have been 11 done many years ago. There's no reason it should not be 12 done, and we're talking about Quarter Horses and

13 thoroughbreds -- two totally different breeds, totally14 different programs.

16 the races, this, that, so forth and so on. We been told

We keep hearing that we can't -- we can't fill

17 that we don't get enough out. You've heard it from the

18 Quarter Horse industry. You've heard it from the 19 thoroughbred industry.

20 That can be cured with split -- split meets.

21 Every state around us has split meets. For years it has

been successful, and we sit here in New Mexico twiddling

23 our thumbs and do nothing.

I don't think there's anyone in this room who has any downside of splitting meets. I can tell you the 1 they can make more money.

2 So it's an equal playing field. It's not going

3 to hurt these trainers in any way, shape, or form, but

4 it's going to get us a lot more horses in here.

5 But then you've got to have the barns to put

6 them in. Where you're going to have the barns to put them

7 in is to split the damn meet. Run your Quarter Horses

8 first or last -- it doesn't make any difference -- and

9 there you go.

10 Plus, the fact we'd better look at the

11 fundamentals of this business, who's making the money and

12 who's not making the money -- i.e., I'm talking about the

13 horses, the four-legged creatures.

14 You can't sell a simulcast -- well, you can't

15 even give it away for a Quarter Horse race. There's no

16 interest in it -- none -- but if you take these Quarter

17 Horses out of the equation, that's going to let -- let

18 these tracks be able to sell -- sell a valued simulcast

19 signal and get it out to the public and raise their income

20 a lot.

21 So that needs to be addressed and it needs to be

22 addressed now.

23 CHAIRWOMAN BOURGUET: Okay. Mr. McKenna, I --

24 I -- I think a lot of the issues you've mentioned were

25 mentioned at the last meeting in May.

Page 37 Page 39 1 And we really appreciate your comments, and I 1 millions of dollars. We're talking about a grassroots 2 think you spent some time talking with management, and I 2 people that love horses and love their work. I think some 3 think -- I encourage you to continue that discussion of these things should be looked at. 4 and -- and maybe offer a proposal from -- if management is They'll come through -- I can't remember what 5 agreeing with all your ideas, then perhaps they can track. It's been Albuquerque. It's been SunRay. The 6 present some proposals to us, and we'll take a look at grooms can't have a crock pot or have any electrical them and -- and move forward with that. skillets. You know, where are they supposed to live? MR. McKENNA: Okay. If there are no questions, These are all things you don't realize. 9 I thank you very much for your time. And if you move to another place, everybody 10 CHAIRWOMAN BOURGUET: You're very welcome. wants a six-month, one-year lease. Who can afford that? 10 11 Thank you for coming. You're only going to be there for two months. COMMISSIONER CORAZZA: Mr. McKenna, can I say 12 12 You know, there's a lot of factors that go in 13 one thing to you? I know you go to Kentucky and you spend 13 there that affect the horses. a lot of money on your horses, and I appreciate your And as far as one of the tracks and their late 14 15 request for stall changes and race dates and race breeds 16 You have to sell product, and if we don't sell at the last minute, they do it all the time. 17 product, we're dead in the water. Those black barns that I think are -- I don't 17 18 MR. McKENNA: Procter & Gamble said it better --18 like them. That isn't what the horsemen approved. Last 19 and Ford Motor -- if we don't start putting some money minute, well, we got to take them or we don't have a race 19 20 into this thing -- and I'm talking about from the 20 21 Horsemen's Association as well as the tracks -- i.e., an 21 The horsemen should be in charge of their own 22 advertising -- long-range advertising program, we're 22 destiny. The tracks get 45 percent of the gaming. The

24

25

Page 38 Page 40

horsemen have to split 20 percent between purses and the

Then on top of that, the racetracks can take 20

25 it. We're not merchandising. We're falling right on our

3 CHAIRWOMAN BOURGUET: Okay. Leslie Fincher?

We've got a product. We don't know how to sell

4 MS. FINCHER: Hi. I'm kind of old school. I've

5 been here in New Mexico as a resident since 1986. I raced

5 prior -- probably '69 on -- and I see a lot of changes --

7 especially in New Mexico -- where the horsemen helped get

8 the gaming in.

23 stupid.

24

All these managements bowed and begged us to

10 help get it passed. Now that we've passed the golden

11 goose on to them, they're trying to take the eggs away

12 from the horsemen who the whole program was set up for.

For example, why are we paying half of their

14 jockeys insurance?

15 COURT REPORTER: I'm sorry; could you say that 16 again?

17 MS. FINCHER: Half of their jockeys insurance?

18 Why are we not allowed in the tracks 30 days before the

19 meet starts like we were in the past?

20 These people that aren't getting stalls -- the

21 owners, the trainers, the people that work with the horse,

22 that have to haul, why are they not being reimbursed for

23 their extra expenses?

If you're wondering why people are getting out of the business, they can't afford it. We don't have 1 percent of their 20 percent to pay for promotions, like

2 giving away cars or tickets or whatever.

breeders' awards.

So, you know, I think the horsemen don't realize

4 how much money besides the jockey amounts they're paying

 $5\,\,$  for. That shouldn't be the horsemen's fees. They're the

6 lowest man on the -- the totem pole -- other than the

7 Gaming Commission. What is it, the Anonymous --

8 CHAIRWOMAN BOURGUET: Gaming Control Board?

9 MS. FINCHER: No, the Anonymous -- Gaming

10 Anonymous.

11

14

CHAIRWOMAN BOURGUET: Oh, the Gambling --

MS. FINCHER: They get a percentage.

13 CHAIRWOMAN BOURGUET: Yeah.

MS. FINCHER: And all this needs to be looked

15 at. The people here, a lot of them train both breeds.

16 Our -- our race numbers are higher than the nationals --

17 Saratoga, Del Mar, Santa Anita. We've got more horses per

18 race.

19 If we need to run more thoroughbred races, more

20 Quarter Horse races, let's increase the day -- number of

21 races a day. Several of these tracks have cut way back.

22 SunRay, sure you're going to have bigger purses.

23 You -- you've cut your days in half, so you've got a

24 quarter of a piece of pie instead of a slice of the pie,

25 but it justifies, you know, whatever, but they all wanted

Page 41 Page 43 1 to run -- they promised they'd run 60 days. 1 MR. RIVERA: No. I'm okay. 2 CHAIRWOMAN BOURGUET: Oh, you're fine, okay. So in order to be equitable, I agree with Mr or executive director Mr. Trejo that we take a further look into this, and hopefully we'll have something by next meeting, but whatever it takes, we're going to we're going to do it the right way.  So at this time I think what we need to do is just if there's any discussion from the commissioners, any questions, I would entertain that.  Seeing none, hearing none, I would like to continue tabling this and have a report at our next meeting.  And we'll we will ensure that all the parties convene. If I need to appoint someone from each	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	hair samples, we request UC Davis. For urine and blood samples, Truesdail Laboratories, Pennsylvania Equine Toxicology & Research Laboratory, and Ohio the Department of Agriculture.  CHAIRWOMAN BOURGUET: For the benefit of the public here, Mr. Trejo, would you explain why we do split testing?  MR. TREJO: Split testing is afforded to the horseman per rule. In the case of a drug violation, the sample is split. One sample is sent to the official laboratory; the other sample is sent to our split testing holding facility state lab here in Albuquerque.  Upon a violation, the trainer has the privilege to request sending the split sample off to what we call a referee laboratory for further analysis and confirmation whether on the on the positive or not, so it's a very important part of the due process for horsemen and owners.  CHAIRWOMAN BOURGUET: Uh-huh.  MR. TREJO: Okay.

And now we have Jockeys' Guild that would like to participate, because the jockeys also get a percentage of that, because now we have not allowed them to ride that mount for a particular race, so they have not garnered any funds from that race either.  So in order to be equitable, I agree with Mr or executive director Mr. Trejo that we take a further look into this, and hopefully we'll have something by next meeting, but whatever it takes, we're going to we're going to do it the right way. I've been at Sunland Park for 17 years, and this is the second time it's happened. The only other time was the season we don't like to talk about, so you can figure out what season that was.  The issue we have with a blanket policy for Sunland Park is, the current policy from 2006, you have to make a decision after your first book.  So the length of our racing season, we have an additional five or six condition books, and the way the purses work, a few good weeks, a few bad weeks, it's it's tough to make a decision at that point, and the length of each track's meet, it's a blanket policy is tough to to put something out with the difference in businesses between say, like, the SunRay Park and the Sunland Park. That's what  CHAIRWOMAN BOURGUET: I I understand the differences there  MR. DIX: Okay.  CHAIRWOMAN BOURGUET: but I think maybe that

CHAIRWOMAN BOURGUET: Opposition?  Motion passes. Sunland Park?  MR. DIX: Thank you, Madam Chair.  The next item is request for approval for our retroactive payout from the 2018-19 purse accounts, and this was for the amount of \$770,639.90.  And it was to my understanding that we would have to pay that policy out or that amount out under our old policy, because that's what we were under at the time, so I I'm making that request to to pay out this retro under the 2006 policy.  CHAIRWOMAN BOURGUET: Okay. Any discussion any commissioners on this request?  MR. DIX: And Madam Chair, before we pay the the policy out, we'll get with the Commission and make sure all the numbers and everything everybody is good with on the auditor's side, and our horsemen's bookkeeper is	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	dispute between the local committee, that would go to the state board, and then we we were trying to leave the Commission out of these retroactive of course, the goal is to pay out all of our purse money during the meet. 1	COMMISSIONER SMITH: The studies I've looked at	1	in the media that there was some Commissioners on the
2	contradict each other. One says it's good, one says it's	2	forum that did have some conflicts of interest, and as
3	bad, you know, so it depends on who's doing the studies	3	long as there's not an appearance of impropriety, we don't
4	whether it's good or bad.	4	oppose anything.
5	MR. SANCHEZ: Well, that's that's the inquiry	5	It just the fairness whoever gets it
6	that the Governor made as to whether or not additional	6	competes, and we compete on our own merits. That was our
7	study should be done. She requested that of the	7	existence for why we entered into litigation.
